

The first North of England Curlew Festival will take place at Bolton Castle from 2nd to 4th of June 2017.

The event aims to celebrate our local curlew population and raise awareness for their plight throughout the UK. All ages and levels of interest and experience are welcome.

The weekend will include a series of optional family friendly activities, from guided curlew safaris to an art exhibition, poetry, music and also some talks and training for those with an interest in getting more in-

involved in conservation.

The weekend is being organised by environmental journalist and writer Karen Lloyd; Mary Colwell, who walked 500 miles to raise awareness for curlews and since helped set up the Irish Curlew Task Force and Slimbridge Curlew Conference and is hosted by Tom Orde-Powlett.

Charities including The Game and Wildlife Conservation Trust, Royal Society for the Protection of Birds, British Trust for Ornithology, Wader Quest and independent conservationists will all be present to share their knowledge and experience.

To book places on any of the activities, please email tom@boltoncastle.co.uk or call Bolton Castle on 01969 623981. For enquiries relating to the art exhibition please email Karen Lloyd at info@karenlloyd.co.uk.
